HiTECH.

SUPPORTED BY: S3E

APPLY NOW
Until **12 Jan 24**, 17:00 CET

HiTech/S3E Start is a unique hands-on training experience for:

- **Research teams** with deep tech projects that want to explore the path from the lab to the market.
- **Technology transfer officers** that want to learn a process to foster science-based entrepreneurship and technology commercialisation.

During 18 weeks (6 Feb 24 to 6 Jun 24) you will have:

Online Classes

Webinars

Mentoring

By the end of the program, you will:

- Get access to an internationally proven process for deep tech projects.
- Develop a business case for a product or service grounded on the technology proposed to the program.
- Acquire skills in technology commercialisation and science-based entrepreneurship.
- Be in a better position to apply for public or private funding.

HiTech is part of the European S3E Project. This means that the Portuguese participants will have a scaled experience and will have colleagues from all over Southern Europe.
