

INVESTIGAÇÃO BIOMÉDICA | NBR

1ST YEAR	ECTS
Critical Skills in Research	5
Advanced Research Methods	5
Cell Regulation	10
Research Seminars	5
Dissertation Project	5
Laboratory Rotation 1	5
Laboratory rotation 2	5
Laboratory rotation 3	5
Option 1	5
Option 2	5
Option 3	5
OPCIONALS	ECTS
Carcinogenesis – underlying molecular and cellular alterations	5
From function to dysfunction in neural circuits and behaviour	5
Stem cells and development	5
Ageing and age-related diseases: from molecular mechanisms to therapies	5
Regenerative Medicine Strategies	5
Mechanisms of neuronal differentiation, development and function	5
Translational and Precision Medicine	5
Translational and Clinical Oncology	5
2ND YEAR	ECTS
Dissertation	60
