Analysis, selection and listing of applications will be done in two mandatory stages (curricular analysis and individual interview), according to the following evaluation criteria (which will be detailed and quantified in meeting minutes), regarding scientific areas relevant to the PhD degree:

The Curricular Analysis (AC) – (scored from 0 to 20 points) is worth 30% of the final classification and will focus on the following:

a) Research experience, including communications and scientific publications (I): 60%

b) Ongoing or defined research project (P): 10%

c) Professional activity, courses, internships or other relevant experience (AP): 30%

The calculation of the Curricular Analysis (AC) classification is done through the weighted average of the evaluated criteria:  $AC = I \times 60\% + P \times 10\% + AP \times 30\%$ .

The Motivation (M) for the accomplishment of this PhD Program - (scored from 0 to 20 points) is worth 10% of the final classification.

The Individual Interview (EI) - (scored from 0 to 20 points and disclosed in decimal points) has a weighting of 100% in the final classification of the second stage of the PhD call. Will include a brief presentation in English on the candidate's personal and scientific background and will focus on a) scientific knowledge, research experience, professional experience and b) motivation, availability and, communication skills (including knowledge of English) and interpersonal skills.

The call for the interview, indicating the date and time, will be sent to the candidates email address indicated at the time of application.

The final classification (FC) – scored from 0 to 20 and disclosed in decimal points - of the contest is expressed by the following formula:  **$CF = AC \times 30\% + M \times 10\% + EI \times 60\%$**

According to the criteria identified above and the limit of vacancies set (22), the 22 candidates with the highest final classification and equal to or greater than 16 values (on a numerical scale of 0 to 20 values, disclosed in decimal points) will be considered "**Placed**".

Candidates with a final classification equal to or higher than 16 points, but classified after the 22nd position, will be considered "**Alternates**". Candidates who meet these criteria will be automatically placed in descending order of the final classification, in case of withdrawals of placed candidates before the beginning of the PhD, or in case of *Placed* candidates who do not proceed with the enrolment in this PhD Program within the deadlines established for this purpose.

Candidates with a final classification lower than 16 points will be considered "**Not-placed**".

Candidates who do not fulfil the "entry qualifications" described in point 3, or who do not comply with the instructions and procedures mentioned in this document, or who do not show up to the interview will be considered "**Excluded**".
