

The NMS Library announces

LOVE METHODS WEEK

2026
19-23 January

 Would you like to deepen your knowledge of research methodologies?

 Are you looking to improve research methods and adopt more transparent and reproducible practices?

Sign up and join Love Methods Week's free program offered by various institutions.

Highlights of Online Events (webinars and workshops):

19th

- Using the PRO-MaP guidelines to improve the clarity of methods and protocols
- Write my protocol

20th

- Reducing experimental bias in preclinical studies
- Rigorous experiments and clear communication with the Experimental Design Assistant
- From Lab Notes to Lab Protocols

21st

- Sample size calculations
- Preregistration: Tips Tricks and Q&A
- Evidence Synthesis: Types, Reproducibility, Best Practices
- Protocols.io Hackathon: Get Your Protocol Ready to Publish

22nd

- Basic of qualitative research in the field of biomedicine
- Methods Mythbusting: Insights from Journal Editors and protocols.io
- Reproducibility for Everyone (R4E)

23rd

- Reporting guidelines - flipped classroom
- How to use methodological shortcut citations responsibly
